WORK EXPERIENCE

Software Enginner – React.js | Node at Dextra – Jul/2021 – present (Campinas, Brazil)

- As a front-end developer at Dextra, I developed a project using **Micro-frontends Architecture** (3 micro, 1 container, Context/Redux Toolkit and events communication); Along with that, I've used:

- HTML, CSS in JS, JavaScript and React 17+;
- React Hooks, JS ES7+ and Material UI (Design System);
- Unit Testing with Jest, React Testing Library (95%+ coverage) and E2E Testing with Cypress;
- Started following along with back-end developers to take Node.js tasks;

Freelancer Fullstack Software Enginner – Sep/2021 – present

- I'm using my free time to deal with freelance projects;
- Currently, at my tech stack, I'm using Vue 3 + Firebase.js and React.js with Node.js RESTful API;

Front-end Developer – React.js | Angular at Linx – Dec/2020 – Jul/2021 (Cascavel, Brazil)

- I developed the front-end of a product called FarmaCloud using React.js and helped another using Angular; With that, I've used:

- HTML, CSS and JavaScript ES6+;
- React.js & Redux, and Context API; Angular and RxJS;
- Electron.js (PDV), Styled-Components, SASS, Bootstrap and MaterialUI;
- Axios, Services (Angular) and Formik; Docker, Git and SEMVER;

QA Automated Enginner | JavaScript at TOTVS CRM – May/2020 – Dec/2020 (Cascavel, Brazil)

- Automated and Manual Testing in a CRM application;
- E2E Testing development with Cypress.io and TestCafé, API with Postman API and JMeter (Load Test);
- Manual, Regression, Usability, Functional and Integration Tests;
- Workspace configuration using Docker and Rancher.dev;

Support Tech Analyst at Linx – Nov/2019 – May/2020 (Cascavel, Brazil)

- As a support, I learned a lot about communication and deal with clients, understanding their pain with the software and coming up with a solution to their problems.
- While I was working there, I develop a simple CRUD app using Delphi and Firebird to help another colleagues to store and share useful information about problems that they encounter that can help the entire team;

Computer and IT Teacher at Master Scholl Center – Mar/2019 – Nov/20219 (Cascavel, Brazil)

Preparation and presentation of classes for students of different ages;

- Planning, preparation, writing and correction of tests and assessment activities;

I taught classes with the following subjects:

- HTML, CSS, JS, PHP, MySQL and Access,
- Office package (Word, Excel, Powerpoint...),
- Internet Concepts (HTTP, Protocols, Browsers...),
- and Design with Illustrator, Photoshop and Video with Sony Vegas and Premiere;

ABOUT ME

I'm a passionate developer. I started learning about web development ~4 years ago, where I see a lot of opportunity for me to grow professionally. Beyond the lines of code, I'm a proud father, responsible and I like to spend time learning new things.
